## Projects work

### 1. Online Courses

- I have worked on this long term project's frontend using HTML, Bootstrap, CSS and React JS.
- API integration and app workflow.
- App uses three roles student, teacher and administrator.

### 2. Web Accounts

- I have worked on this ERP project's frontend using HTML, Bootstrap, CSS and React JS.
- API integration and app workflow.
- Work on multiple third party libraries. eg. reactstrap, material UI, barcode, accordion, moment.js etc.

### 3. Worklog System

- This project is for managing every employee day-to-day tasks and work duration on each task.
- Frontend using HTML, Bootstrap, CSS and React JS.
- Backend using firebase real-time database and firebase storage and different third party libraries.
